

DO NOT change Wisconsin's Do Not Call List!

I do not want companies, even those that I have services with to call me. Our no call list law is strong and I like it that way.

I am especially concerned that if my cell phone number becomes available to telemarketers that I will not only have to deal with the aggravation of receiving unwanted calls, but I will also have to pay extra on my phone bill.

Rather than weakening the Wisconsin law I would suggest that you strengthen the National law to one such as Wisconsin has.
